## **1.0 PRODUCT DESCRIPTION**

The MX4RR-Li series Return Path Receivers are an integral part of a two way RF network, converting upstream optical signals into RF signals at the head-end or remote hub. 4 independent receivers are packaged in a 1RU 19-inch rack-mounted unit, providing service for up to 64 RFoG optical network terminals (ONTs). The low-noise design of the receiver improves noise performance by 4dB, in accord with DOCSIS 3.0. -32dBm receive sensitivity, allow upstream bounding PON design, typically supporting 32 node combining in 20km designs, 64 combining in 10km designs.

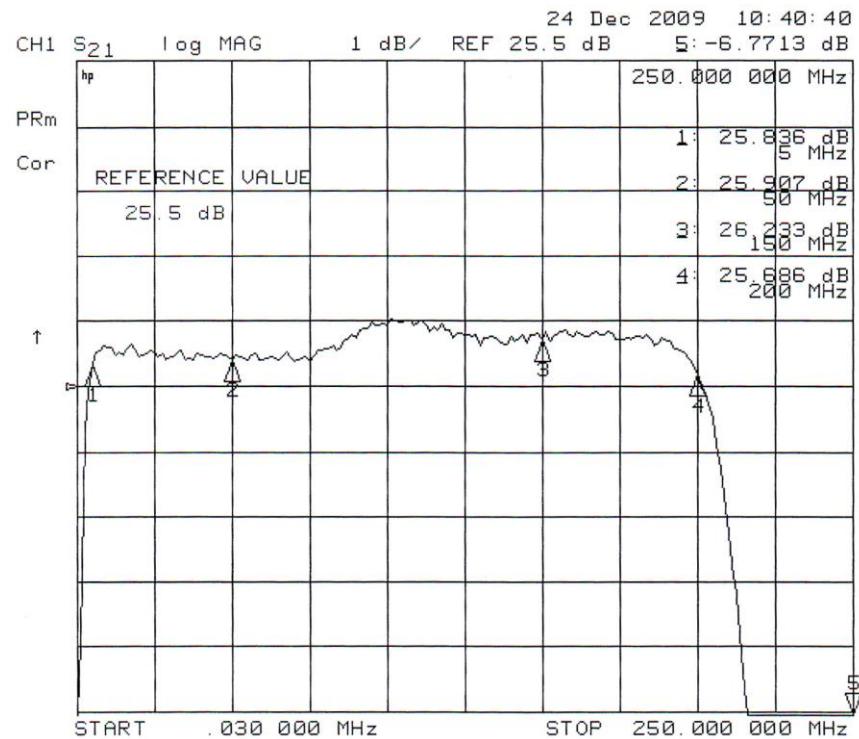

All receivers are temperature-hardened, allowing installation in any network environment including outdoor cabinets. SNMP network management functionality may optimize monitoring for remote installations. Full front panel controls are convenient for set up.

## **2.0 Features and benefits**

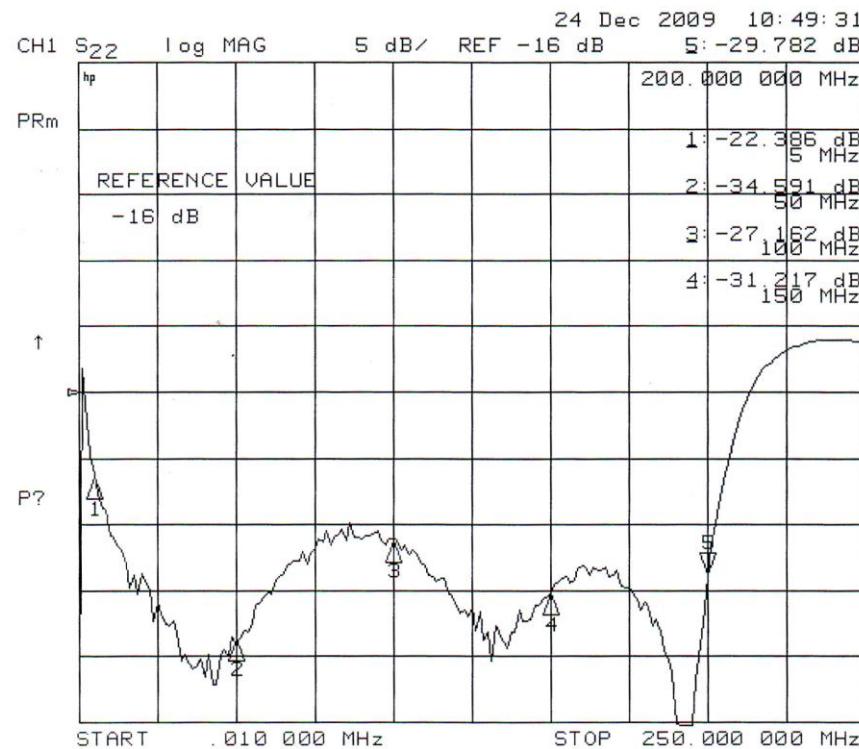

- 4 low noise optical receivers, up to -32dBm receive sensitivity.
- Supports up to 64 RFoG micro-node transceivers
- Compatible with any technology of FTTx PON: EPON/GEPON, GPON, BPON, DPON
- Support DOCSIS 3.0, upstream bounded with PON design
- Optical link pre-budget: typically supporting 32 splitting way in 20km, 64 splitting way in 10km.
- Supports CW or burst mode operation
- 1200~1620nm band wavelength
- SNMP network management function
- RF output level can be adjusted by network
- Built-in 1+1 backup power, optional redundant A/B inputs
- Stable performance of resistance to temperature, allow -40~+150°F operating temperature
- Simple mode, 19" 1RU mount, with 4 independent optical receivers
- Excellent P/P ratio

### 3.0 Test results

#### 3.1 Flatness (Test equipment: HP8783D)

#### 3.2 Return loss (Test equipment: HP8753D)

## 4.0 TECHNICAL INDEX

Performance			Index			Supplement
			Min.	Typ.	Max.	
Optic feature	Operating wavelength ( $\lambda$ )	(nm)	1200		1620	
	Responsivity	R13	(A/W)	0.85	0.95	1310nm
		R15		0.9	1.0	1550nm
		R16		0.8	0.9	1610nm
	Optical link budget loss	(dB)	29			
	Receiving power	Typical	(dBm)	-29		-13
		Sensitivity			-34	-32
		Overload		-7	-5	Po
	Number of optical receiver	(pcs)	4 or 8			
	Return loss	(dB)	50			
	Optical connector		SC/APC			LC/APC option
RF feature	Operating bandwidth		(MHz)	5		100
				5		200
	RF output level		(dBmV)	30		60
	RF gain adjustable		(dB)	-30		0
	Flatness		(dB)	-0.75		+0.75
	Return loss		(dB)	16		
	RF test point/monitor		(dB)	-20.5	-20	-19.5
	NPR/Dynamic Range		(dB)	30/10		Pin=-20dBm
General feature	Equivalent input noise current		pA/ $\sqrt{Hz}$			4 5~200MH
	Power supply	AC	(V)	90	220	265
		DC		-30	-48	-72
	Power consume		(W)		12	
	Operating temp.		(°C)	-40		+65
	Relative humidity		(%)	5		95
	Size		(")	19×12×1.75		(W)×(D)×(H)
