

MX-LGX-3-R1-F

Smarter, flexible and quick operational cabling system fiber splitter mounting plate for communication networks. Maxcom's rack mount plates enable optical fiber cable management and mounting of LGX fiber splitters in a compact 1 RU space. Front adapter plate allows easy & quick installation by means of fasteners (snap-in locking style). Black powder-coated 16-gauge steel plate provides a long-lasting, excellent management of optical fiber connections.
